MOSTAKIM BILLAH

Dhaka, Bangladesh

Video Editor & Motion Graphics Artist · AI Creative Technologist · Urban & Regional Planning

to.mostakim@gmail.com | linkedin.com/in/billah-mostakim | github.com/Mostakim-Git | youtu.be/-eOgfXAkdDY

PROFILE

Jahangirnagar University Urban and Regional Planning student and Creative Multimedia Specialist with 3+ years of experience in high-impact video editing, motion graphics, documentary filmmaking, and digital design. Proficient in Adobe Creative Cloud (Premiere Pro, After Effects, Photoshop, Illustrator) and DaVinci Resolve 20, combined with technical expertise in AI integration (Google Gemini, OpenAI), civic web applications, and native Android engineering. Proven track record of driving channel growth and doubling viewership through strategic storytelling, kinetic typography, and motion graphics for global clients.

TECHNICAL SKILLS

Video Editing & Post-Production: Adobe Premiere Pro, After Effects, DaVinci Resolve 20, Video Assembly, Multi-Camera Editing, Color Grading, Sound Design, Audio Synchronization

AI-Assisted Video & Audio Workflows: AI Auto-Captioning & Subtitling, AI Voice Enhancement (Adobe Podcast), AI Frame Interpolation, Generative Fill, Automated Transcript Editing, AI-Driven Noise Reduction

Motion Graphics & Visuals: Motion Graphics, Visual Effects (VFX), Kinetic Typography, Documentary Storytelling, Storyboarding, Social Media Creatives

Software & Civic Tech Engineering: React 18/19, TypeScript, Vite, Tailwind CSS, Node.js/Express, Google Gemini API, Java, Android SDK, Capacitor, Leaflet, SQLite, GitHub Actions CI

Graphic Design & Branding: Adobe Photoshop, Illustrator, InDesign, Canva, Brand Identity, Typography, Print & Digital Layouts, Color Theory

PROFESSIONAL EXPERIENCE

Video Editor & Motion Designer | Creative Media Studio · *Apr 2023 – May 2025 | Remote*

- Edited and produced high-engagement video content (documentary, action, and narrative formats) for YouTube, Instagram, and Facebook.
- Utilized Adobe Premiere Pro, After Effects, and DaVinci Resolve 20 for footage assembly, color grading, multi-track audio editing, and sound design.
- Designed dynamic motion graphics and visual effects (VFX) aligned with brand guidelines to boost viewer retention.
- Managed end-to-end post-production workflows, consistently meeting tight global client deadlines and project budgets.

Graphic Designer & Content Specialist | Academic and Admission Pathshala · *Jun 2022 – Oct 2023 | Dhaka, Bangladesh (Hybrid)*

- Conceptualized and designed print and digital assets, including book covers, instructional materials, promotional posters, and social media advertisements.
- Applied core principles of design, color theory, grid layout, and typography to establish cohesive visual branding.
- Partnered with cross-functional teams to deliver marketing collateral aligned with organizational campaign goals.

SELECTED PROJECTS & FILMOGRAPHY

1. The Presence of Mughal Influence in Old Dhaka – Urban Heritage Documentary Film
Direction, Cinematography, Color Grading & Sound Design | Zero To Motion · youtu.be/-eOgfXAkdDY
Produced an architectural and cultural field documentary exploring 17th-century Mughal spatial heritage, arched gateways, monuments, and living urban morphology across Old Dhaka.

2. AUDIO-rec – USB Audio Recording Workstation for Android
Java, Android SDK (no AndroidX), SQLite, Python, GitHub Actions | github.com/Mostakim-Git/AUDIO-Rec
Built an offline Android 10+ DAW capturing bit-perfect hi-res audio from external UAC1/UAC2 USB interfaces at up to 32-bit float / 384 kHz in mono, stereo, or multichannel. Wrote custom WAV/RF64, FLAC, AIFF, and Ogg/Opus encoders and playback engine from scratch with zero third-party libraries; 12 native screens (340 classes) in a 575 KB signed APK built without Gradle.

3. Jolabaddho? – AI-Assisted Waterlogging Reporting App
React 19, Vite, Node.js/Express, Google Gemini API, Capacitor, Leaflet, Zod, Playwright | github.com/Mostakim-Git/Jolabaddho_APK
Built a full-stack, mobile-first civic app for Bangladeshi cities supporting UN SDGs 6, 11, and 13. Uses schema-validated Gemini Vision drainage analysis combined with live 24-hour Open-Meteo rainfall forecasts for rule-based LOW/MEDIUM/HIGH flood risk scoring and formal Bangla municipal complaint drafting across 12 City Corporations.

4. CaCa (JU URP Calendar) – Offline-First Class Calendar for University Students
React 18, TypeScript, Vite, Tailwind CSS, Dexie (IndexedDB), Capacitor 6, Java | github.com/Mostakim-Git/Mostakim-Git/releases
Offline-first Android app customizable for any university department and courses. Features native Java home-screen widgets (Today's Classes, Daily Note, Next Alarm), exact-time full-screen alarm ringer, mood-tagged notes, JSON backup/restore, and an offline built-in pdf.js class notes viewer.
